**COMMUNITY
MEETING NOTICE**

Northeast Sector Plan

**June 19, 2008
6–7:30 p.m.
Metro Tech
Business Conference Center
1900 Springlake Drive
605-4495**

In order to reach more community members this meeting is a repeat of the Community Meeting held on May 29.

The Northeast Sector Plan process is a collaborative effort led by Oklahoma City's Planning Department to address suburban growth and acreage development in northeast Oklahoma City over the next 20 years.

The goal of the sector plan process is to produce a Land Use Plan for the area to be used by City officials, citizens and private businesses to guide long-term decisions about future growth and development.

During the meeting, City Planners will present preliminary planning issues identified for the Northeast Sector and solicit input regarding other potential issues. Participants can also volunteer to participate on a Plan Team that will develop the policies to be included in the plan.

More information about the Northeast Sector plan process and feedback forms can be found at: www.okc.gov/planning/nesection
